About Us

Congregation Albert School of Jewish Studies is committed to Jewish Learning at every phase of life.

Our teachers and teen assistants work to create a rich array of Jewish educational opportunities for our students and families.

Our "learn and do" approach to learning combines student participation in social action, mitzvot, and ritual/holiday experiences with the study of the Torah, other sacred texts, history, and tradition. Student learning is enhanced by small group instruction, hands-on projects, field trips and celebrating as a community!

Our goal is to welcome students and families to an environment that encourages spiritual and academic growth!
